### Coronation Automates Corporate Actions

Coronation Fund Managers goes live with SmartStream's corporate actions automation solution.

Coronation Fund Managers is automating its corporate actions lifecycle with SmartStream Technologies' TLM [transaction lifecycle management] Corporate Actions OnDemand solution, becoming the first TLM Corporate Actions client in South Africa.

The automated approach adds control and risk mitigation to internal operational procedures, says Alan Jones, SmartStream business solutions director. Coronation is using the solution to process mandatory and voluntary events, including... (read more...)
